Roger Vilà

Senior Backend Developer
Sitges, Barcelona, Spain

Extract

As a Senior Backend Developer with over 10 years of experience, I have demonstrated expertise in building robust and scalable backend systems for a variety of web applications. My expertise lies in developing RESTful APIs, and database design, as well as integrating third-party services and libraries.

Throughout my career, I have gained experience in building high-performance applications with an emphasis on security and maintainability. I have experience with software development methodologies like Agile and have worked extensively in a collaborative team environment.

My technical skill set includes proficiency in PHP frameworks such as Laravel and Symfony, as well as experience with relational databases like MySQL, and Postgres. Additionally, I have experience with Python, Docker and JavaScript libraries like React, and Vue.

Experience

Wivapp.com
Tech Lead
Feb 2024 - Present
